

FUNDS GIVEN 2019*

The Foundation provides funds for projects and scholarships to ensure that students and researchers are able to work in Otago.

*Financial year ending 31 March 2019

SUMMER STUDENT SCHOLARSHIPS

Antibiotic Resistance
\$5,000

Immunity/Microbiology
\$13,000

Fertility/Brain
\$4,000

Oral Health
\$12,000

Cancer
\$24,000

Bacteria
\$4,000

Heart
\$8,000

Fertility
\$4,000

Gut Health
\$8,000

Diabetes
\$12,000

Neuro/Brain
\$4,000

Community Health
\$4,000

Blood Testing
\$4,000

ANNUAL GRANTS

Drug Development
\$65,607

Neuro/Brain
\$10,000

Antibiotic Resistance
\$33,652

OTAGO COMMUNITY TRUST

Cancer
\$34,954

Drug Development
\$35,000

JACK THOMSON BEQUEST

Joint Pain
\$34,680

Arthritis
\$44,452

LAURENSEN BEQUEST

Cancer
\$30,000

Neuro/Brain
\$25,000

Nutrition/Diabetes
\$26,477

ABOUT THE FOUNDATION

The Otago Medical Research Foundation was founded in 1967 to further medical research in Otago. With the first round of grants distributed in 1968, we have now funded almost \$9 million dollars in medical research projects.

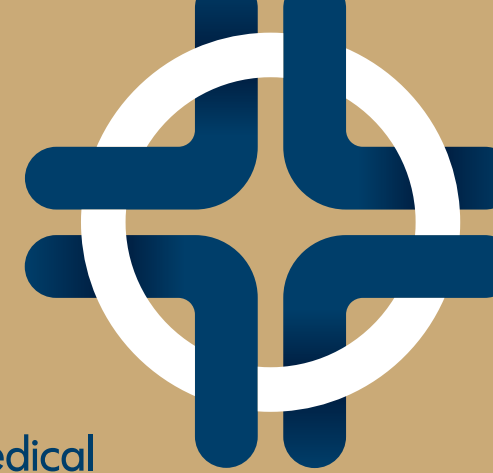

The Foundation is a careful steward of donations, and we do not receive any Government funds. Research is undertaken in Otago with funds raised from a variety of bequests, trusts, individual and corporate sponsors, and a number of fundraising events each year.

FUNDING ALLOCATION

All medical researchers are passionate about their work, so to be certain our funding is distributed wisely we have a committee of scientific experts to oversee the process. The Foundation's Scientific Committee reviews all eligible projects and scholarship students through rigorous application rounds, choosing the very best each year. Funding excellent projects and scholarships ensures that students and researchers are able to work in Otago, helping build our community along with focused research outcomes.

Professor Greg Jones,
Chair of the Scientific Committee

FOUNDATION

WELCOME TO CLUB OTAGO

Club Otago, the Otago Medical Research Foundation's high-class lunch series, was launched in early 2012, generating ongoing success and enthusiasm from our supporters.

Club Otago opens the way for us to celebrate everything that is great about this province and combines the very best in speakers, camaraderie and charity.

Four luncheons are held each year, featuring the topical speakers of the moment (whatever their area of expertise), the gatherings can be utilised by you and/or your firm as a corporate outing, or as a reward for management, staff or clients, and ALL funds raised are directed towards the Otago Medical Research Foundation and its on-going mission of identifying and nurturing world-class medical research in Otago.

Supporting the Foundation is perhaps the purest of all charitable outlooks with medical research something from which we all benefit. Every discovery made has positive implications for each and every one of us.

Corporate memberships are set at three levels:

Senior Fellow - \$5,000 plus GST per annum

Fellow - \$2,500 plus GST per annum

Associate Fellow - \$1,000 plus GST per annum

Individual memberships are available at \$250 plus GST annually.

Senior Fellow members receive four complimentary tickets to each luncheon, Fellow members two tickets, and Associate Fellow members one ticket each. Corporate members will pay no additional fees other than if they invite extra guests to lunch while those who take out individual subscriptions will pay for their lunches and those of their guests each time (at \$65 per head).

These luncheons are highly enjoyable and entertaining gatherings and serve as effective, low-cost networking avenues while assisting a wonderful Otago charity.

Please feel free to pass these details on to colleagues and friends.
